EDI Information and Enrollment Form

Effective in 2009, Minnesota Law will require all healthcare providers to transmit three types of transactions electronically. See right for implementation dates and transaction type.

There is good news with all this change. The good news is ultimately, this will save thousands of dollars for providers in quicker payments, cleaner claims, and reduced work.

Type of health care transaction	Deadline for Rule Promulgation	Effective Date of Rules
Eligibility	January 15, 2008	January 15, 2009
Claims	July 15, 2008	July 15, 2009
Remit/Payment	December 1, 2008	December 1, 2009

We can help you become compliant today and it's really not that hard! For smaller practices, we can price the transactions individually. For example, 100 claims is \$39 per month (less than postage!) and ERA is \$25 per month. For mid-size practices, we recommend the Swift Package that includes:

- Unlimited Electronic Claims
- Unlimited Individual Claims Status Inquiry
- Unlimited Individual Eligibility Inquiry (payer surcharge may apply)
- Unlimited Paper Claims
- Unlimited Electronic Remittance Advice (when available from payer)
- Unlimited Secondary Claims Processing Environment (SCoPE)

Unsure of what package is best for you? Call us at 763-546-2455 or 888-322-2455 and we will analyze your situation to see what's best for you. Otherwise, if you are ready to get started. Check the items you desire, complete the bottom of the form and fax back to 866-506-9681. Thank you.

_____ Swift Package _____ \$39 -100 Claims/Month _____ \$25 ERA per Month
